

Trouble with visibility outside your home in the dark?

Contact the West Tuality Habitat Repair Program for installation of high quality, motion-detecting, solar lights, which can be installed along a walkway, in the driveway, or at a front/back door for better visibility after dark.

Contact projects@westtualityhabitat.org with your name, address, phone number and where you need additional lighting, or call (503) 359-8459.

Need Extra Light Around the House?

Contact West Tuality Habitat for Humanity for up to (3) motion detected solar lights that can be install on the porch, siding, fence posts to provide extra light on paths, garbage receptacle storage and front door/steps.
